Re: Off-Site Rule Acceptability Determination
County Line Landfill Partnership
IDEM #25-03

Dear Mr. Mauntel:

This letter is in reply to the August 8, 2005 letter to Mr. William Damico regarding the County Line Landfill Partnership request for off-site rule acceptability.

Pursuant to 40 C.F.R. § 300.440 (b), my staff has determined that no relevant violations or releases currently exist at County Line Landfill Partnership. Therefore, County Line Landfill Partnership located 7922 North Old U.S. Highway 31, Argos, Indiana is acceptable to receive non-hazardous wastes from CERCLA sites at the cells which meet the minimum technology requirements for subtitle-D landfills.

The acceptability determination is based on the assumption that only non-hazardous waste for which County Line Landfill Partnership is properly permitted will be shipped to this facility. It is your responsibility to review any proposed waste streams for compliance with the permits for your facility.

Please note that this determination is based on the available information at the time of the review. Your status could be changed any time relevant information becomes available according to the procedures in 40 C.F.R. § 300.440 (d). Generators who need to use a currently acceptable facility should verify the current acceptability of any facilities they wish to use with the appropriate Regional Off-Site Rule Coordinator(s).

If you have questions, please contact Mr. Damico at (312) 353-8207, United States Environmental Protection Agency, Region 5 – DE-9J, 77 W. Jackson Boulevard, Chicago, Illinois 60604.

Sincerely,

A handwritten signature in cursive script that reads "Joseph M. Boyle". The signature is written in dark ink and is positioned above the printed name and title.

Joseph M. Boyle, Chief
Enforcement and Compliance Assurance Branch
Waste, Pesticides and Toxics Division
